WORK WITH US
Don't just take it from us…
Here's what some of our customers have to say.

“I highly recommend Ascend2 for any research projects in the B2B marketing space. Coming from a heavy academic-research background myself, I’m quite demanding when it comes to fielding and analyzing market surveys. Intentsify had very specific goals in mind to support multiple use cases with original research. Todd and Jenna of Ascend2 had the requisite knowledge, skills, and resources to achieve our weighty objectives. Further, the program was affordable (even for an early-stage startup), and the results to date are already surpassing our ROI goals.”

-David Crane, VP Marketing, Intentsify

“Ascend2 was a pleasure to work with and helped us to design a thoughtful survey that uncovered truly actionable and noteworthy findings. They work smart and fast and even helped to promote and place the research results at launch. Ascend2 is at the top of our list for future projects.”

-Nick Olsson, CEO, Olsson Communications

“Good news to report back to you – we are seeing a lot of success with the leads we have gotten, not only from you but from the report in general (website, our emails, ads, etc.). My CEO is super pleased.”

-Emily Wingrove, Director of Marketing, Synthio

“On a hunch that original, empirical research could boost engagement with my audience, I contracted Ascend2 and Todd Lebo to provide a study on the most effective tactics being employed by B2B marketers. The research was delivered on time in an easily workable format, and any minor corrections were handled with rapid turnaround and excellent customer service. In the end, the research deliverable ended up influencing hundreds of thousands of dollars in closed-won business, achieving an 85x ROI on the purchase price of the research. I am extremely impressed with Ascend2 and will use them again any time I require original research on industry influencers for my marketing campaigns.”
